

CHOOSING A HEALTHCARE PROVIDER

Here are some helpful questions to ask a professional when choosing a healthcare provider for your child:

- Have you ever heard of Selective Mutism (SM)?
- What is your understanding of the disorder?
- What do you believe has caused the SM.
- Have you ever treated a child with SM?
- How many children have you treated?
- Can you describe your success rate?
- What are your treatment modalities?
- Can you describe this in layman's terms?
- What is the parents' role in treatment of SM?
- Would you give me references to families that you have treated?
