

## Do you have a child who has or had a diagnosis of selective mutism (SM)?

We would like to learn about you and your child's experiences in treatment!

We are inviting youths ages 7-17 years old who are in or have received treatment for SM to participate in this study with their parents.

- Youths and parents will complete an online interview and questionnaires
- Youths and their parent will each receive a \$10 gift card

**If interested, contact Jennifer Schild at [jschild@su.suffolk.edu](mailto:jschild@su.suffolk.edu)**

This study has been approved by the Suffolk University Institutional Review Board.
